NEW DIRECTORS AND PRESIDENT ELECTED

At the 2005 Annual meeting, six new members were elected to the Board of Directors. Normally either four or five out of the nine directors are alternately retired and replenished each year. The extra 6th member was elected this year to replace an incumbent who was unable to serve the second year of his term. Dr. Kwo-Sen Kuo (Atmospheric Science, 1983) was elected President by the directors. The new Directors held their first meeting on January 7, 2006, when each assumed an office of the Board, and started on planning for the 2006 activities.

新春愉快，萬事如意！

IMPROVEMENTS IN PIPELINE TO BETTER SERVE ALUMNI

Thanks to the great effort and a wonderful job that director Nancy Hwang (Geography, 1962) had done for membership, a thorough database was compiled and updated in 2005. According to statistics derived from the database, alumni from the two decades of 1960s and 1970s make up the highest proportions in our membership. In light of the recent decrease in the number of alumni coming to the US we foresee a membership decline in near future. We must strive to serve our alumni better in order to attract new members.

One of the improvements in formulation is to utilize our website to create "virtual communities." Some examples of these virtual communities are: Parents of Young, Finance Finesse, Careers and Jobs, etc. (Names are tentative.) Our website will play a facilitating role in aiding communication of specific interests in these virtual communities, such as child development, career development, job opportunities, resource sharing, financial advices and so on.

For example, an alumnus with young children moving to this area would definitely like to find a trustworthy pediatrician here. The Parent of Young virtual community will be a great place for this alumnus to go and find out from other alumni with young children.

The production and distribution of this issue of Newsletter are partially sponsored by alumna and President of the 31st Board Yeena Liu (Foreign Lang. and Lit., 1984), who is currently a Financial Advisor with UBS.
